

Dr. Nathaniel Williams (1675-1738) of Boston

Harvard 1693; SHG 4:182-86.

1752 June 26 (Friday). Mr. Phinehas Rice (of Grafton) from Boston brings me Dr. Nathaniel Williams late of Boston, his Method of Practice in the Small Pox.

1760 December 13 (Saturday). P.M. Mr. Fessenden here. He has been at Capt. Maynards Barn and conversed with Mrs. Maynard -- but went not into the House. *Jacob* Somewhat bad, but not dangerously. Mrs. Maynard was glad of a Pamflet I Sent containing Directions published by Mr. Prince from Dr. Williams of Boston's Manuscripts, about the manner of managing the Small Pox.

The method of practice in the small-pox, with observations on the way of inoculation. Taken from a manuscript of the late Dr. Nathanael Williams, of Boston in N.E.; Published for the common advantage, more especially of the country towns, who may be visited with that distemper. Boston: Printed and sold by S. Kneeland, in Queenstreet opposite the prison., MDCCLII. [1752]
